Activities

- An activity represents a single screen with a user interface, in-short Activity performs actions on the screen.

- public class MainActivity extends Activity {

}

Services

- A service is a component that runs in the background to perform long-running operations.

- public class MyService extends Service {

  }

BroadCast Receivers

- Broadcast Receivers simply respond to broadcast messages from other applications or from the system.

- public class MyReceiver extends BroadcastReceiver {
-     public void onReceive(context,intent){
-
-     }
- }
